The proponent believes that it has conclusively demonstrated that the proposed allocation would provide first or second noncommercial educational service to at least 2,000 people and 10% of its service population and that it is technically precluded from building same-class facilities using a channel reserved for noncommercial educational use.

Therefore the proponent respectfully requests that Channel 251C1 at Madras, Oregon, be reserved for noncommercial educational use.

I, Gray Frierson Haertig, hereby affirm that:
